

ART

Secondary Curriculum Map - 2025/26

We have designed a diverse, skills-based curriculum to ensure that students have opportunities to progress using a variety of mediums and techniques.

Students will study an array of artists from the likes of Picasso, Van Gogh and Sarah Biffin to artists who are alive today, including Kenturah Davis and Jack Kabangu.

There will be a focus on the seven elements of art through the entire curriculum and students will progress in skills including drawing, painting, sculpture, collage, photography and textiles.
